Towers from Around the World

Earthen mounds are found in the United Kingdom, and they were often used for ceremonial functions.
Silbury Hill near Avebury, England

Many Native American tribes constructed earthen mounds in the eastern United States.
Monk's Mound near St. Louis, Missouri

Remains of ziggurats are found throughout the area where Babel was located. Their names reveal that these structures were closely associated with the worship of the heavens.
Great Ziggurat of Ur in modern day Iraq

Roughly 100 earthen pyramids have been found in China. They were used as tombs for emperors and their relatives.
The Angling Mausoleum in China

Central America features dozens of famous step pyramids that were often used as places for ritual sacrifice and worship.
El Castillo at Chichen Itza

Egypt is home to the largest pyramids, which served as tombs for their rulers.
Pyramids at Giza, Egypt

Smaller than their northern counterparts in Egypt, over 250 Nubian pyramids in Sudan were used as tombs.
Nubian pyramids near Meroe, Sudan

Considered to be the oldest pyramids in the Americas, the ruins of nearly two dozen pyramids have been found near Caral, Peru.
Remains of a pyramid in Caral, Peru

The Tower of Babel

The Bible does not describe what the tower of Babel looked like. Do hundreds of ziggurats, pyramids, and earthen mounds from around the world provide clues about the tower's appearance and purpose?
