

What does every child need in order to grow and develop a healthy body?

How can you show a child as young as Mimi that she is loved and precious to God?

EXPLORATION JOURNAL

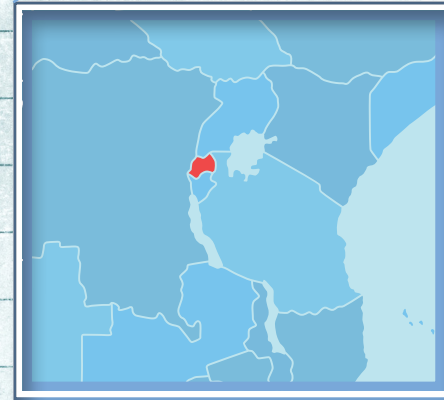

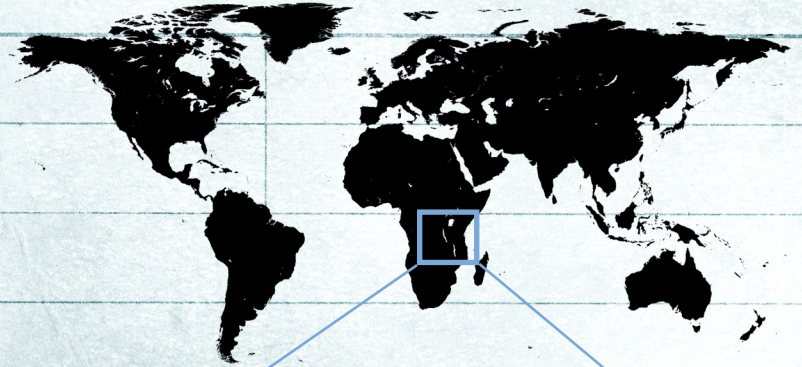

Name: Mimi

Country: Rwanda

Problem: Extreme Hunger

About: When Mimi was only a baby, her father died. Her mother doesn't have a way to earn enough money for the family. Mimi is hungry a lot of the time. She doesn't understand why her tummy hurts sometimes and why her mom can't make the pain go away. She wants to learn to run and play like her brothers and sister, but her body isn't strong enough yet, and she gets sick very easily.

Prayer Requests:

Pray for very young children like Mimi whose parents can't afford to give them the food their bodies need to grow healthy and strong.

Pray that local churches would be able to identify families living in remote areas who are struggling with providing food for their children.
