

Can you imagine going through the day without knowing if you will have food that night? How would that feel?

How can the local church be a source of support and encouragement to a family like Hugo's that has only known poverty?

PRAYER JOURNAL

EL SALVADOR

Country: El Salvador

Challenge: Generational Poverty

About: Hugo has always known poverty and uncertainty. Work is scarce and pays very little in his community. When he grows up, he won't have many options if he stays in the same community where his parents and his grandparents live. He knows there must be something better, but he doesn't know what it is or how to get it.

Prayer Requests:

Pray for children like Hugo who don't see a future for themselves other than the poverty they were born into.

Pray for the pastors and church volunteers visiting families in need and sharing the hope of the gospel.
