NOTES

RADIO VOICE EFFECT

This effect can be achieved at the soundboard. Temporarily remove (EQ) all the low frequencies and some of the highs from the mic channels that Raina and Captain are using as they read their lines backstage. Experiment until you get the sound you want.

JESS' PRE-RECORDED JOURNAL ENTRIES

Jess has a total of six journal entries. As noted in the scripts, some are to be pre-recorded and played during the performance, and some can be read from offstage. Or, to keep it simple, you can pre-record them all.
