

Usage Rights for the Keepers of the Kingdom Resource USB

The resources on this USB are for use within your own organization. A local church is considered an “organization,” but an entire denomination or satellite church is not considered part of the “organization.” You may not redistribute or resell any of the items on this USB outside your own organization.

We have provided a variety of logo options for you to use in promoting your *Keepers of the Kingdom* VBS program. You have permission to use these logos in any way that pertains to your VBS but may not resell or redistribute the logos to other organizations. You will also find images to use on various social media platforms in order to advertise your VBS.

You have permission to:

- Store the digital files as an archive copy.
- Distribute the digital files to individuals within your own organization for your own organization’s use.
- Purchase additional Resource USBs (from AnswersVBS.com) for extended use within your organization.

You do not have permission to (unless stated otherwise in the resource):

- Place any digital file on this USB on a website, server, or other platform that is accessible to the public or anyone outside of your organization.
- Place any digital file in this set on a social media site, file-sharing site outside your own organization (but you may share files on a private organization-based file-sharing platform), media streaming site, or other public-accessible site.
- Prepare, copy, use, promote, sell, or distribute any derivative work of any of the resources.

Can I post the Answers VBS videos on my website?

You may embed the Answers VBS promotional videos on your own website to promote your own VBS event online but may not offer them as downloads on your website. You may link to the mission moment videos and Creature Feature videos which are posted on the Answers VBS YouTube channel (YouTube.com/AnswersVBS).
